Modernism Prize

CALL FOR NOMINATIONS

World Monuments Fund (WMF) invites nominations for the 2014 World Monuments Fund/Knoll Modernism Prize, which will be awarded this fall to a design professional or firm in recognition of innovative design solutions that preserved and saved a modern landmark at risk. The biennial prize was established to raise public awareness of the contribution modernism makes to contemporary life, the important place modernism holds in the architectural record, and the influential role that architects and designers play in preserving modern heritage.

The World Monuments Fund/Knoll Modernism Prize recognizes heroic efforts that preserve our modern heritage. Projects that enhanced a site's architectural, functional, economic, and environmental sustainability while also benefiting the community are encouraged. Nominated projects must have been completed in the last five years.
